

The Power Of One: Performing Arts Celebration

"I am only one, but still I am one.
I cannot do everything, but still I can do something;
and because I cannot do everything,
I will not refuse to do something I can do"

The person who made this statement harnessed the Power of One. The Power of One is the understanding that one person can impact their community for the better. As you attend the various performances throughout the day remember that each of us can do something to change the world.
